Press Release

**Ministry of communications allows BIP Telecom  
Limited Corp. to provide VOB services to  
business sector, using cable or ADSL modem,  
and to provide split-billing call service (1-700)**

=====

Following the decline of Bezeq's market share below 85% in the business sector as well, Ministry of Communications updates the license of Bezeq International's BIP Telecom Limited Corp., which provides domestic VOB telephony services.

Following the modification, BIP Telecom Limited Corp. will be able to provide VOB services to the business sector as well, but will be limited to doing so using either cable or ADSL modem technology.

In addition, the Ministry has allowed the corporation to provide a split-billing call service (1-700).
